

# A Time to SHARE, SUGGEST, and give FEEDBACK

## Lets, TOGETHER, address substance use in our community; our home, RED CLIFF!

- How would you like services to be improved or strengthened?
- What should be the priorities for prevention and intervention?
- What are your recommendations for improving how the system responds to people struggling with substance abuse?

Please come Friday FEBRUARY 15th, 10am-1pm to the Red Cliff Community Health Center to share your experiences, ideas, and recommendations to improve the system response to substance abuse and support people in finding and maintaining healing.

This information will be used to design the Red Cliff Tribal Action Plan. Staff from Rainbow Research, a nonprofit, will be facilitating the conversation. There will be opportunities to share opinions and experiences confidentially.

**WHEN:** FRIDAY FEBRUARY 15TH

**TIME:** 10:00AM—1:00PM
